TRADING COPIER SOFTWARE LICENCE, RISK ACKNOWLEDGMENT, RELEASE, AND CONFIDENTIALITY AGREEMENT

This agreement covers the Trading Copier only — software the Subscriber installs and runs on the Subscriber's own computer, connected to the Subscriber's own brokerage account by the Subscriber's own credentials. **It is not the agreement for granting anyone trading authority over an account.** That is a different arrangement and a different document. If the Subscriber has granted, or is being asked to grant, trading authority to any person, this agreement does not apply to it and does not cover it.

---

1. Parties and Purpose

This Agreement is entered into as of ____________________, 20____ (the "Effective Date") between:

Walkers Software LLC, a Georgia limited liability company of Atlanta, Georgia (the "Company"), which owns and develops the software described below;

Andre ____________________ (the "Publisher"), individually, a member and manager of the Company, who develops the software and originates the trade signals it receives; and

____________________________________ (the "Subscriber").

1.1 Released Parties. "Released Parties" means, collectively, the Company, the Publisher individually, and the Company's members, managers, officers, employees, contractors, and agents. Every release, waiver, disclaimer, limitation of liability, and assumption of risk in this Agreement runs to the benefit of each Released Party separately and to all of them together.

1.2 What this Agreement covers. The Company has built a program called the Trading Copier (the "Software"). The Subscriber installs the Software on the Subscriber's own computer and connects it to the Subscriber's own brokerage account. The Publisher separately sends out descriptions of trades the Publisher is taking (the "Signals"). The Software receives those Signals on the Subscriber's computer and, subject to the settings and approvals described in Section 4, may place orders in the Subscriber's own account. This Agreement records what the Software does, the limits of what the Company and the Publisher do and do not do, the Subscriber's acceptance of substantial risk, and the parties' confidentiality obligations.

---

2. Nature of the Arrangement — Not an Advisory Service

2.1 No compensation. Neither the Company nor the Publisher receives any fee, commission, profit share, revenue share, subscription payment, or other compensation of any kind, direct or indirect, from the Subscriber for the Software, for the Signals, or for anything else connected with this Agreement. The Software is not sold, licensed for a fee, or offered commercially. This arrangement is a private, uncompensated accommodation among people known to the Publisher.

2.2 Not a registered professional. The Company is a software company and the Publisher is a software developer. NEITHER THE COMPANY NOR THE PUBLISHER is a registered investment adviser, investment adviser representative, broker-dealer, financial planner, or fiduciary; is registered with the U.S. Securities and Exchange Commission, FINRA, or the Georgia Secretary of State Securities Division; holds any securities licence; or has formal training in finance or investment management. Forming a limited liability company confers no qualification, registration, or expertise, and the Subscriber shall not treat the Company's existence as a sign of either.

2.3 No advice; no recommendation; no individual consideration. Nothing the Publisher, the Software, or any Signal does or communicates is investment, legal, tax, or financial advice, or a recommendation to buy or sell anything. THE SIGNALS ARE NOT TAILORED TO THE SUBSCRIBER. Every Signal is a description of a trade the Publisher is taking in the Publisher's own account, sent in identical form to every recipient. Neither the Company nor the Publisher knows or considers the Subscriber's financial position, income, tax situation, investment objectives, risk tolerance, time horizon, other holdings, or any other personal circumstance, and neither undertakes to do so. No Signal is an opinion that any trade is suitable for the Subscriber. **The Subscriber's decision to install the Software, to connect it to an account, to choose any setting, and to act on any Signal is the Subscriber's own independent decision.**

2.4 The Subscriber acts for the Subscriber's own account. The Subscriber alone owns and controls the Subscriber's brokerage account. The Subscriber is not engaging anyone to manage money, is not purchasing a product or service, and receives nothing of value in exchange for participating.

2.5 Software under active development. The Software is experimental, actively modified — sometimes several times a day — and provided strictly "AS IS" and "AS AVAILABLE," with no warranty of any kind, express or implied, including any implied warranty of merchantability, fitness for a particular purpose, or non-infringement.

2.6 THE PUBLISHER'S OWN WORDS — READ BEFORE SIGNING.

> "I am a software developer, not a finance professional. I have no financial training, no licence, and no idea whether these strategies will keep working. I consider what this software does to be speculation to the point of gambling. I am gambling my own money with it, and if you install it, it may gamble yours. It has had bugs before and it will have bugs again. Do not connect it to any money you cannot afford to lose completely."

THE SUBSCRIBER HAS READ THE STATEMENT ABOVE, UNDERSTANDS IT TO BE TRUE, AGREES THAT THE SUBSCRIBER IS NOT RELYING ON ANY EXPERTISE OF THE PUBLISHER, AND CHOOSES TO PROCEED ANYWAY.

Subscriber’s Initials: {{i:1:y}}

---

3. What the Company and the Publisher Do Not Have

3.1 No access to the Subscriber’s account. The Subscriber creates the Subscriber’s own broker credentials and enters them into the Software on the Subscriber’s own computer, where they remain. NEITHER THE COMPANY NOR THE PUBLISHER RECEIVES, HOLDS, OR HAS ANY WAY TO OBTAIN THE SUBSCRIBER’S BROKER CREDENTIALS, LOGIN, PASSWORD, OR ACCESS TOKENS.

3.2 No trading authority. Neither the Company nor the Publisher holds, or is granted by this Agreement, any trading authority, power of attorney, discretionary authority, or authorization of any kind over the Subscriber’s account. Neither can place, modify, or cancel an order in the Subscriber’s account. Every order in the Subscriber’s account is placed by software running on the Subscriber’s own computer, under settings the Subscriber controls.

3.3 No custody; no money movement. Neither the Company nor the Publisher can deposit, withdraw, or transfer funds or securities to, from, or between any account, and neither has custody or possession of the Subscriber’s funds or securities at any time.

3.4 No visibility. Neither the Company nor the Publisher can see the Subscriber’s balances, positions, orders, or results, and neither receives any report of them. The Subscriber’s account activity is known to the Subscriber and the Subscriber’s broker only.

3.5 What the Publisher can do. The Publisher can do exactly two things affecting the Subscriber: send Signals, and stop sending them. The Publisher may stop sending Signals to the Subscriber at any time, for any reason or no reason, without notice. THE SUBSCRIBER UNDERSTANDS THAT IF THE PUBLISHER STOPS SENDING SIGNALS WHILE THE SUBSCRIBER HOLDS AN OPEN POSITION, NO FURTHER INSTRUCTION TO CLOSE THAT POSITION WILL ARRIVE, AND MANAGING OR CLOSING IT IS ENTIRELY THE SUBSCRIBER’S RESPONSIBILITY.

---

4. The Subscriber’s Controls and Responsibility for Settings

4.1 The Subscriber configures everything. The Software’s behaviour is determined by settings the Subscriber chooses, including how much of the account to risk per trade, the maximum number of open positions, a daily loss limit, whether options or shares may be bought, which Signal types to ignore, the hours during which new trades may be opened, and whether to stop opening new trades for the day.

4.2 Approval mode is the default. By default the Software places no order until the Subscriber approves it. THE SUBSCRIBER MAY TURN THIS OFF AND ALLOW ORDERS TO BE PLACED AUTOMATICALLY, WITHOUT ANY HUMAN REVIEW, INCLUDING WHILE THE SUBSCRIBER IS ASLEEP OR AWAY. DOING SO REQUIRES A SEPARATE, DELIBERATE ACKNOWLEDGMENT INSIDE THE SOFTWARE. THE SUBSCRIBER UNDERSTANDS THAT SWITCHING ON AUTOMATIC PLACEMENT MEANS REAL MONEY LEAVES THE SUBSCRIBER'S ACCOUNT WITH NO PERSON LOOKING AT THE TRADE FIRST, THAT THIS IS THE SUBSCRIBER'S OWN CHOICE, AND THAT THE SUBSCRIBER IS RESPONSIBLE FOR EVERY ORDER PLACED WHILE IT IS SWITCHED ON.

4.3 Every setting is the Subscriber's own. The Company and the Publisher do not select, recommend, approve, or review any setting the Subscriber chooses. Any default value shipped with the Software is a starting point, not a recommendation, and is not an opinion that it is appropriate for the Subscriber.

4.4 The Subscriber can stop at any moment. The Subscriber may close the Software, uninstall it, revoke its access at the broker, sell any position through the Subscriber's own broker login, or use the Software's own controls to close positions or stop opening new ones. None of this requires anyone's consent or cooperation.

4.5 Practice mode. The Software can be run in a mode that does everything except send orders to the broker. The Subscriber is encouraged to run it that way first. Whether to do so, and for how long, is the Subscriber's decision.

Subscriber's Initials: {{i:1:y}}

---

5. Licence

5.1 Grant. The Company grants the Subscriber a personal, revocable, non-exclusive, non-transferable, non-sublicensable licence to install and run one copy of the Software on computers the Subscriber owns or controls, for the Subscriber's own personal use only, for as long as this Agreement is in effect.

5.2 Restrictions. The Subscriber shall not sell, rent, lease, sublicense, publish, or distribute the Software or any Signal; use it for the benefit of any third party or on any account the Subscriber does not own; reverse engineer, decompile, or disassemble it, or attempt to derive its strategies; or remove or alter any notice in it.

5.3 Ownership. The Software and all intellectual property in it are and remain the exclusive property of the Company. Nothing in this Agreement transfers or licenses any ownership interest to the Subscriber.

5.4 No obligation. The Company has no obligation to provide updates, fixes, support, maintenance, or continued availability of the Software or the Signals, and may discontinue any of them at any time without notice.

---

6. Risk Disclosures and Acknowledgment

THE SUBSCRIBER ACKNOWLEDGES AND ACCEPTS EACH OF THE FOLLOWING. EVERY CATEGORY BELOW DESCRIBES EVENTS THAT HAVE ACTUALLY OCCURRED OR MUST REASONABLY BE EXPECTED TO OCCUR, AND MUST BE ASSUMED POSSIBLE AT ANY TIME.

6.1 Software defects. The Software has had, and will have, bugs. Defects can cause unintended orders, duplicate orders, missed orders, unprotected positions, incorrect stop-loss or profit-target levels, orders rejected by the broker, or a position exited at the wrong time or price. Because every subscriber runs the same program, a single defect can affect every subscriber at the same time.

6.2 It runs on the Subscriber's own computer. If the Subscriber's computer is switched off, asleep, restarted, updating, disconnected from the internet, or the Software is closed, THE SOFTWARE CANNOT ACT AT ALL — including to close a position. Open positions may go unmanaged, over a night or a weekend, until the Software is running again. The Subscriber is responsible for the state of the Subscriber's own computer.

6.3 Broker access expires. The broker requires the Subscriber to reconnect on a recurring basis. If the Subscriber does not, the Software cannot place or close orders in the account until the Subscriber reconnects. Only protective orders already resting at the broker, if any, remain in effect.

6.4 Signals may not arrive, or may arrive late. Signals travel over the internet and through third-party services. Any of them can be delayed, duplicated, or fail entirely. An exit Signal that does not arrive means the Software does not act on it, and the position remains open. Neither the Company nor the Publisher warrants that any Signal will be sent, delivered, or received.

6.5 The Subscriber's fill will differ from the Publisher's. The Subscriber's orders are placed at a different moment, at a different size, at a different price, and possibly at a different broker from the Publisher's. THE SUBSCRIBER'S RESULT WILL DIFFER FROM THE PUBLISHER'S, AND MAY BE A LOSS WHERE THE PUBLISHER'S WAS A PROFIT.

6.6 Broker-side events. Orders can be rejected, delayed, partially filled, or cancelled by the broker; broker systems and data can be unavailable or stale. These are outside anyone's control.

6.7 Market risk. Trading stocks and options involves substantial risk of loss. Stop-loss orders do not guarantee an exit price — prices can gap through them. Options can expire worthless; same-day-expiry ("0DTE") options are extremely volatile and can lose their entire value within minutes.

6.8 Strategy risk. The strategies are rule systems developed from historical backtesting. Backtests are simplified models, past performance does not predict future results, and several previously used strategies were retired after losing money. Any strategy can lose money over any period.

6.9 Changes without notice. The Publisher may add, remove, or change strategies, parameters, and code at any time without notice. The Software's behaviour tomorrow may differ from its behaviour today.

6.10 No oversight. Because the Publisher is unregistered, no regulator supervises this activity, and the Subscriber does not have the protections that apply to registered advisory relationships.

6.11 Unsigned software. The Software is not code-signed. The Subscriber's operating system will warn about it, and the Subscriber must deliberately override that warning to run it. The Subscriber should download it only from the location the Publisher provides and should not accept a copy from anyone else.

6.12 TOTAL LOSS IS A REALISTIC OUTCOME. THE SUBSCRIBER UNDERSTANDS THAT THE ENTIRE BALANCE OF THE ACCOUNT CAN BE LOST — NOT MERELY REDUCED — AND THAT THIS IS A REALISTIC POSSIBLE RESULT, NOT A REMOTE ONE. THE SUBSCRIBER IS NOT RELYING ON ANY EXPECTATION OF PROFIT, PRESERVATION OF CAPITAL, OR RECOVERY OF AMOUNTS PLACED AT RISK, AND COULD ABSORB THE COMPLETE LOSS OF EVERY DOLLAR IN THE ACCOUNT WITHOUT MATERIAL HARDSHIP.

Subscriber's Initials: {{i:1:y}}

---

7. No Guarantees

Neither the Company nor the Publisher makes any representation, warranty, or guarantee regarding profits, performance, accuracy, availability, or error-free operation. No past result, backtest, simulation, screenshot, chart, statement, or communication is a promise or projection of future performance.

---

8. Assumption of Risk; Release and Waiver of Claims

8.1 ASSUMPTION OF RISK AND RELEASE. THE SUBSCRIBER KNOWINGLY AND VOLUNTARILY ASSUMES ALL RISK OF FINANCIAL LOSS ARISING FROM OR RELATED TO THE SOFTWARE, THE SIGNALS, AND ANY TRADING IN THE SUBSCRIBER'S ACCOUNT, INCLUDING LOSS CAUSED BY SOFTWARE DEFECTS, MISSED OR LATE SIGNALS, SYSTEM OR CONNECTIVITY FAILURES, BROKER EVENTS, STRATEGY UNDERPERFORMANCE, MARKET MOVEMENTS, THE SUBSCRIBER'S OWN SETTINGS, AND THE ORDINARY NEGLIGENCE OF ANY RELEASED PARTY. TO THE MAXIMUM EXTENT PERMITTED BY LAW, THE SUBSCRIBER RELEASES, WAIVES, AND DISCHARGES EACH AND ALL OF THE RELEASED PARTIES FROM ANY AND ALL CLAIMS, DEMANDS, CAUSES OF ACTION, AND LIABILITIES OF EVERY KIND FOR TRADING LOSSES OR OTHER DAMAGE ARISING FROM OR RELATED TO THIS AGREEMENT, THE SOFTWARE, THE SIGNALS, OR TRADING IN THE ACCOUNT, INCLUDING CLAIMS BASED ON ANY RELEASED PARTY'S ORDINARY NEGLIGENCE, AND COVENANTS NOT TO SUE ANY RELEASED PARTY ON ANY RELEASED CLAIM.

8.2 What this release does not cover. This release does not apply to (a) a Released Party's gross negligence, willful or wanton misconduct, fraud, or intentional wrongdoing; or (b) any right or remedy that cannot be waived as a matter of law, including rights arising under federal or Georgia securities laws to the extent a waiver of those rights is void.

8.3 Savings clause. If any portion of this Section 8 is held unenforceable, it shall be enforced to the maximum extent permitted and the remainder shall remain in full force.

Subscriber's Initials: {{i:1:y}}

---

9. Limitation of Liability

TO THE MAXIMUM EXTENT PERMITTED BY LAW, AND EXCEPT FOR THE MATTERS EXCLUDED IN SECTION 8.2: (A) NO RELEASED PARTY SHALL BE LIABLE FOR ANY INDIRECT, INCIDENTAL, CONSEQUENTIAL, SPECIAL, OR PUNITIVE DAMAGES, OR FOR LOST PROFITS OR LOST OPPORTUNITY; AND (B) THE TOTAL AGGREGATE LIABILITY OF ALL RELEASED PARTIES COMBINED, ARISING OUT OF OR RELATED TO THIS AGREEMENT, SHALL NOT EXCEED ONE HUNDRED U.S. DOLLARS ($100) IN THE AGGREGATE AND NOT PER PARTY OR PER CLAIM.

---

10. Subscriber Responsibilities

The Subscriber shall:

1. Download the Software only from the location the Publisher provides, and not install a copy received from any other person.
2. Keep the Subscriber's own broker credentials secret and not share them with anyone, including the Publisher. **No one from the Company or the Publisher will ever ask for them.**
3. Choose the Subscriber's own settings, and review them after any update.
4. Monitor the account through the Subscriber's own broker login, and not rely on the Software's own display as the record of what is true. **The broker's records are authoritative.**
5. Be solely responsible for all taxes on gains and losses; all broker tax documents are issued to and are the responsibility of the Subscriber.
6. Maintain whatever margin status, option-approval level, and minimum equity the Subscriber's broker requires, which are set and enforced by the broker alone.
7. Not connect the Software to any account the Subscriber does not personally own, or to any account holding funds the Subscriber cannot afford to lose entirely.
8. Not connect the Software to any retirement, custodial, trust, joint, or business account without first confirming that doing so is permitted by the account's terms and by anyone else with an

interest in it.

9. Stop the Software and disconnect it if the Subscriber no longer wishes trading to continue.
10. Verify the Publisher’s key fingerprint out of band, as the Software instructs, before trusting any Signal.

---

11. Confidentiality

11.1 Confidential Information. “Confidential Information” means non-public information about the Software and the Signals, including their existence, source code, architecture, strategies, parameters, performance results, signal contents, and the contents of this Agreement.

11.2 Obligations. The Subscriber shall not disclose Confidential Information to any third party, shall not use it except as this Agreement permits, and shall not republish, forward, resell, or relay any Signal to any person. These obligations last three (3) years after termination.

11.3 Exceptions. Confidential Information does not include information that is or becomes public through no fault of the Subscriber, was lawfully known to the Subscriber before disclosure, or is independently developed without use of Confidential Information. **The Subscriber’s own account data, positions, trade history, and tax information are the Subscriber’s own and may be used and shared freely.**

11.4 Protected disclosures. Nothing in this Agreement prevents, restricts, or discourages either party from: (a) communicating with, reporting to, providing information to, or participating in any investigation or proceeding of any governmental or regulatory authority, including the U.S. Securities and Exchange Commission, FINRA, the Georgia Secretary of State, or any law-enforcement agency, without notice to the other party; (b) disclosing information as required by law, subpoena, or court order; or (c) disclosing information in confidence to the party’s own spouse, attorney, or accountant. No prior authorization is needed for, and no penalty attaches to, any such disclosure.

---

12. Privacy and Data

12.1 What stays on the Subscriber’s computer. The Subscriber’s broker credentials, access tokens, private key, account balances, positions, orders, and trade history are stored on the Subscriber’s own computer and are not transmitted to the Company or the Publisher.

12.2 What the Publisher holds. To send Signals, the Publisher holds the Subscriber’s name, contact details, and public key. The Publisher does not hold anything else about the Subscriber.

12.3 Signing this Agreement. The signed copy of this Agreement, including the Subscriber’s name, email address, signature, and the electronic-signature service’s audit record, is retained by the

Company and its e-signature provider for so long as the Company reasonably requires it, and is not sold or provided to anyone else except as Section 11.4 permits or the law requires.

---

13. Term and Termination

13.1 Either party may terminate this Agreement at any time, for any reason, effective on written or electronic notice (email or text suffices). The Publisher ceasing to send Signals, or the Subscriber uninstalling the Software, also terminates it.

13.2 Open positions. ON TERMINATION, ANY POSITION THEN OPEN IN THE SUBSCRIBER'S ACCOUNT IS ENTIRELY THE SUBSCRIBER'S RESPONSIBILITY TO MANAGE OR CLOSE. No further Signals will arrive, and nothing will close those positions automatically.

13.3 On termination the Subscriber shall stop using and delete the Software.

13.4 Survival. Sections 5.3 and 6 through 14 survive termination.

---

14. Governing Law; Dispute Resolution; Miscellaneous

14.1 Governing law and venue. This Agreement is governed by the laws of the State of Georgia, without regard to conflict-of-laws rules. Exclusive venue for any dispute that survives Section 8 lies in the state or federal courts located in Fulton County, Georgia, and each party consents to personal jurisdiction there.

14.2 Electronic signature and records. The parties agree this Agreement may be signed electronically, and that an electronic signature and the associated audit record have the same effect as a handwritten signature, under the federal ESIGN Act and the Georgia Uniform Electronic Transactions Act. The Subscriber consents to receive this Agreement and related notices electronically, and confirms the ability to access and retain a PDF copy.

14.3 Entire agreement; amendment. This Agreement is the entire agreement between the parties on its subject matter and supersedes all prior discussions. It may be amended only in a writing signed by both parties (electronic signature suffices).

14.4 Severability. If any provision is held unenforceable, it shall be modified to the minimum extent necessary to be enforceable, and the remainder remains in effect.

14.5 No assignment; no third-party beneficiaries. Neither party may assign this Agreement. It creates no rights in any third party.

14.6 Acknowledgment of opportunity to consult counsel. THE SUBSCRIBER ACKNOWLEDGES HAVING READ THIS ENTIRE AGREEMENT, HAVING HAD THE OPPORTUNITY TO

CONSULT AN ATTORNEY AND FINANCIAL ADVISER OF THE SUBSCRIBER'S CHOICE BEFORE SIGNING, AND SIGNING FREELY AND VOLUNTARILY.

14.7 Entity status preserved. The Publisher signs individually solely to receive the benefit of the releases, waivers, disclaimers, and limitations in Sections 6 through 9, and not to assume personal liability for any obligation of the Company.

SCHEDULE A — WHAT THE SOFTWARE DOES

This Schedule describes how the Software currently works. It is provided so the Subscriber knows what to expect. It is **not** a promise that it will stay this way — the Publisher may change any of it at any time without notice (Sections 5.4 and 6.9).

A. Where it runs. On the Subscriber's own Windows or Mac computer. It opens a page in the Subscriber's browser at an address beginning `127.0.0.1`, which is the Subscriber's own machine. Nothing about it is reachable from the internet.

B. How it connects to the broker. The Subscriber creates their own developer credentials at the broker and enters them into the Software. They are stored on the Subscriber's computer, in the operating system's own credential store where available. They are never sent to the Company or the Publisher.

C. How Signals arrive. The Publisher publishes each Signal encrypted separately for each recipient and signed with the Publisher's key. The Software checks the signature before acting, so a Signal that did not come from the Publisher is rejected. The Subscriber verifies the Publisher’s key fingerprint by voice, once, at setup.

D. What it trades. U.S. exchange-listed stocks and stock options, including same-day-expiry (“0DTE”) options, according to which Signal types the Subscriber has left enabled.

E. What the Subscriber sets. Percentage of the account to risk per trade; maximum option contracts and shares per trade; maximum positions open at once; a daily loss limit; whether options and/or shares may be bought; which Signal types to ignore; the hours during which new trades may be opened; and whether each trade needs approval.

F. Approval. By default nothing is bought until the Subscriber approves it, and a Signal expires unapproved after a time limit the Subscriber sets. Automatic placement is available and requires a separate acknowledgment inside the Software.

G. Stopping. The Subscriber can close today’s trades, stop opening new trades until the next morning, or sell everything, from the Software’s own screen — and can always act directly at the broker instead.

H. Practice mode. Everything runs normally except that no order reaches the broker.

THE SUBSCRIBER HAS READ THIS SCHEDULE, UNDERSTANDS THAT THE SUBSCRIBER’S OWN COMPUTER PLACES EVERY ORDER UNDER SETTINGS THE SUBSCRIBER CHOOSES, UNDERSTANDS THAT THE PUBLISHER MAY CHANGE ANY OF THE ABOVE AT ANY TIME WITHOUT NOTICE, ASSUMES THE RISK OF WHAT THE SOFTWARE DOES IN THE ACCOUNT, AND ACCEPTS THAT THE ENTIRE ACCOUNT BALANCE MAY BE LOST.

Company / Publisher initials: {{i:2:y}}   **Subscriber initials:** {{i:1:y}}
